

## **HEALTH SAFETY ENVIRONMENT AND QUALITY POLICY**

Falcon Corporation Limited (FCL) is responsible for distribution of Natural Gas and Liquefied Petroleum Gas (LPG) storage and sales. The Company is committed to implementing and maintaining Health, Safety, Environment, and Quality Management Systems which adopt a risk-based approach to meeting all applicable requirements.

Accordingly, Falcon Corporation Limited is committed to:

- Meeting or exceeding our customer expectations through the continual improvement of our Quality Management System in accordance with the ISO 9001:2015 standard.
- Elimination of hazards and reduction of occupational health and safety risks.
- Preventing accidents, injuries, and ill health to our employees and all persons whom the Company associates with during our work activities; and to minimize impact on or pollution of the environment through continual improvement of our Health, Safety, and Environment Management System in accordance with the ISO 14001:2015 and ISO 45001:2018 standards.
- Involvement of all relevant interested parties working for and on our behalf, whilst ensuring compliance with relevant statutory and regulatory requirements, and obligations.
- Developing and maintaining a highly motivated and trained workforce for effective management of health, safety, environment, and quality issues.
- Consultation and participation of workers in decision making on our Health, Safety, Environment, and Quality Management Systems.
- Adopting the best practices of operations to prevent ill health, injuries & fatalities.

This HSEQ Policy statement shall be communicated to all interested parties and shall be reviewed periodically for continuing suitability.
